### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: in the independent claim the recitation of an occupant classification system for a motor vehicle having an inflatable restraint system and classifying an occupant of a seat comprising an array of electrical switches and a control structure which defines a distance between the array switches and an engaging surface that is greater than zero when the seat is unoccupied and the distance between one or more of the switches and the engaging surface decreasing to zero when the occupant occupies the seat to produce the selective output signals in combination with the rest of the recited elements, clearly defines over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references cited disclose some features in common with the present inventions such as occupant classification systems having switches.
